

Greenwich Advisors, LLC is an Asset Management Company founded in 2006 by principals who have been active in portfolio management and investment banking since the mid 1980s. The Company has launched a fund called the Greenwich Advisors India Select Fund with the investor in mind. The Fund's objective is to seek long-term capital appreciation by identifying and investing in Indian equity securities that we believe have the potential for excellent growth prospects and performance. Greenwich Advisors distinguishes itself in the market by partnering with top local market experts who bring on-the-ground resources and sector-specific knowledge that support our investment strategy.

WHAT WE DO

Innovative investing requires understanding of fundamentals that impact the markets and industries. Identifying these elements and leveraging this to a profitable investment is the hallmark of Greenwich Advisors. The Greenwich Advisors India Select Fund focuses on the emerging growth opportunities stemming from India's economic expansion. The India Select Fund invests in key sectors and companies that its manager and research analysts believe will drive India's rapid economic growth over the next decade and beyond.

WHY WE ARE DIFFERENT

The Fund distinguishes itself from others in this market by developing active on-the-ground presence in emerging markets, such as India, through sub-advisors with extensive experience and track records, such as State Bank of India Funds Management Private Limited (SBI FM). The India Select Fund is advised by State Bank of India Funds Management Private Limited (SBI FM) with Greenwich Advisors providing the necessary oversight. Using sub-advisory partners like SBI FM gives us a bird's eye view of India's sectoral growth and a unique insight into prospective investment opportunities. As a result, Greenwich Advisors can evaluate companies more rigorously and better adapt our portfolio to take advantage of market developments.

OUR INVESTMENT PHILOSOPHY

Greenwich Advisors has a disciplined investment philosophy. The Fund's concentration in this market is based on extensive research that indicates strong secular and economic trends in India and other emerging markets, which we feel will serve investors well in the years to come. Greenwich Advisors, LLC is a Greenwich, Connecticut-based professional Asset Management Company serving both individual and institutional clients.

The Fund is a new investment with limited investment history, and there is no guarantee that it will achieve its investment objectives.

An investment in the Fund entails the special risks of international investing, including currency exchange fluctuation, government regulations, and the potential for political and economic instability. Emerging markets may be subject to additional risks not associated with more developed countries. The Fund's share price is expected to be more volatile than that of a U.S. only fund.

An investor should consider the investment objectives, risks, charges and expenses of the Greenwich Advisors India Select Fund carefully before investing or sending money. The prospectus contains this and other information about the Fund. To obtain a prospectus, please call 1 (866) 667-8733 or go to the website www.greenwichadvisorsfund.com. The prospectus should be read carefully before investing.
